# From the *President's Desk*

By the time you read this, it will just about officially be summer- although, for all of us in the low country, it starts a lot sooner. Kids Kamp started on June 12, filled and with a waiting list. Watch out for them as you drive by the Spring Lake area and for their weekly fishing activities every Monday and Wednesday. If you are interested, the Fishing Club could also use more volunteers to help supervise the kids.

The Pool is open and operating well, although we had to make several repairs during May. Our Kick-Off Party on June 3 was filled with fun, games, and food for all. Watch for the 4th of July celebration! Concerts continue – a new band, Tower of Funk and Choosy Mother Horns scheduled in June, and Deas-Guys in July. Enjoy!

During May, all of our “new” Board committees had their first meeting, and each is very busy. The Maintenance Committee reviewed some significant contracts, Finance- our insurance coverage, Recreation- all of the activities mentioned above, and Communication and Recreation are busy preparing for our 50th Anniversary activities as well as the opening of Dolphin Head.

Under the leadership of the Communication Committee, all of the committees also are beginning to prepare the questions for our 2024 survey- which is extremely important as it will help the Board decide on the next major Capital Project after Dolphin Head. Potential projects already receiving discussion include upgrading the Plantation House, a dog park, pickleball courts, and improvements at the front and rear gates to name a few.

As you have read in Peter’s column, the Dolphin Head project is moving along with an anticipated opening in early fall. Significant progress has been made inside the building – wiring, plumbing, insulation and the roof should be installed very soon. The playground is completely installed, and the pour-and-play resilient surface has just been put in place. Management and Board representatives are meeting with the contractor to monitor progress on a regular basis. For those who wish to support the project, opportunities still are open to make a contribution to the Dolphin Head Memorial & Honorarium Program as noted elsewhere in *Plantation Living*.

The Board, represented by Carlton Dallas, also recently spoke at a Town Council meeting in support of the Town and County moving ahead with an agreement for the 278 corridor project and replacement of the bridges. This continues to be a critical concern for all of us, as can be experienced by anyone trying to cross in early morning or late afternoon- and reflected by our day-to-day challenges to have the work force we need, not just here at HHP but throughout the Island.

Finally, just a reminder for all of us- summer is also the start of hurricane season. The Town and the POA provide a lot of information on preparation- so please get ready- just in case!

As a body, the Board members are committed to representing you and are aware of outreach from you by the HHPPOA staff. For the many residents that are new to HHP, the following is a quick overview of how to stay current/informed on what is transpiring:

- Read *Plantation Living*, online or hard copy delivered to your mailbox
- Attend Coffees with Peter, an opportunity to hear first-hand what is happening and ask your own questions
- Enroll for e-mail blasts
- Communicate with the Board:
  - E-mail- [board@hhppoa.org](mailto:board@hhppoa.org)
  - Letter to the POA Service Center
  - By phone 843-681-8800 Ext 9
- Visit our website ([www.hiltonheadplantation.com](http://www.hiltonheadplantation.com)) for board meeting meetings and available forms and documents.

# A letter from our

## *General Manager*

### August 3rd Coffee with Peter

Our Summer Coffee will be held on Thursday, August 3, at 2:00 PM at the Plantation House. This meeting is a little out of sync as our usual July Coffee is traditionally scheduled for the last week in July. The deviation is to accommodate our Guest Speaker's schedule. State Senator Tom Davis will be our Special Guest and will update all in attendance on various business items in Columbia, including pending legislation and funding for the bridge and 278 Corridor project.

### Volunteers for July 4

Our July 4th Celebration, better known as HHP Day, is just around the corner. What makes this day special is the diversity of the activities that take place. We have something for everyone! To make that all happen seamlessly takes volunteers. If you would be willing to give an hour or two of your time on July 4, please give Chrissy Kristian a call at 843-681-8800 ext. 226 or Jen at 843-681-8090. We need folks to judge the parade, staff the games, etc. Any time you can give is much appreciated.

### Alligators

Please be mindful of our alligator population. Most alligators have a healthy fear of humans. **If you suspect and can identify an alligator demonstrating aggression towards humans, please report it to Security so they can investigate and decide if the alligator is indeed aggressive.** If it is found to be aggressive, the alligator will be removed and euthanized. The Department of Natural Resources does not permit aggressive alligators to be relocated. Parents, please do not allow your children to fish or venture near a lagoon without proper adult supervision. We have hundreds of alligators within HHP, and they were here long before humans arrived on the scene. Please exercise caution and common sense.

Do not harass or feed the alligators. If you feed an alligator, you are sentencing that alligator to death. We do not want alligators to associate humans with a food supply. Please pass this information to your visitors and guests.

If you have an Alligator situation, for example, you find Mr. or Ms. Gator in your open garage, your pool taking a dip, at your front door trying to solicit your attention, or basking in the sun on your driveway or front lawn, don't panic! Call HHP Security at 843-681-2459. Our Security Officers are trained to move Mr. or Ms. Gator to a lagoon or other natural area.

### 278 Bridge and Corridor Project

Representatives of the HHPPOA Board spoke at a recent Town Council meeting to emphasize the need for this project from the standpoint of getting folks to work, attracting workers at a reasonable wage, and the productivity lost every time traffic backs up on the bridge. We have been informed the HHI Hospital currently has an entire floor down as they need more employees to staff the patient rooms. Restaurants cannot operate at full capacity, and many fast-food establishments

will only provide carry out due to their inability to attract employees.

The design phase of this project needs to move forward so comments can be made to reveal to what extent the Stoney properties will be affected so these property owners can be treated fairly. The HHPPOA Board is concerned with the present pace of the bridge and 278 corridor project. Back in 2016, the voters of Beaufort County and HHI voted overwhelmingly to tax themselves a 1% sales tax to build a new bridge and improve and expand the 278 corridor.

### Pine Island

We continue to work with our Coastal Engineering contractor on securing the renewal of our permits to renourish Pine Island Beach. Some mis-information is being circulated on social media sites and to the HHPPOA Board regarding the Pine Island renourishment project. We are not dredging the length of Park Creek! We are seeking to move sand that has accreted at the southwest corner of Pine Island back to the Pine Island Isthmus (the area where the boardwalk is located). We have performed this same work on three (3) different occasions with no problems. DHEC and the Army Corps of Engineers liked the name "Navigation Project" instead of "Sand Scraping" for some reason. This work will only take place at the mouth of Park Creek using the sand that has accumulated on the south/west corner of Pine Island and trucking it back around to the Pine Island Isthmus, which is the only land barrier protecting the marsh from the intrusion and wave action of the Port Royal Sound. The sand we are moving will be the same sand we placed on the Pine Island Isthmus with "trucked in sand."

Presently we are trucking in sand from an upland source at great additional expense. Using the sand that has accumulated in the area noted will reduce the cost of renourishing the Pine Island Isthmus from well over 1 million dollars every five years to \$300,000 every 5 to 7 years, depending on storm activity. The project does not dredge the length of Park Creek. It only trucks the sand that has moved by wave and tidal action from the south/west corner of Pine Island back to the Pine Island Isthmus. With the \$300,000 approximate price tag noted, we can place much more sand on the Pine Island Isthmus that was affordable using upland sand where the trucking and transportation costs made up the lion's share of the cost.

This project is designed to protect the marsh and maintain the land connection between Pine Island and Dolphin Head. This project will not only protect the marsh it will do so at a third of the present cost paid by property owners.

### Dolphin Head Renovation Project

The Dolphin Head Project continues to move along. A progress meeting was held with Nix's Construction, a representative of Wood+Partners, POA Staff, and Board members Carlton Dallas and Jon Heron on Thursday, June 1. Work on the playground's pour and play resilient surface is scheduled for later this month. Screen Doors were discussed along with signage. Insulation has been installed in the new building frame, and site work on the pathways is in progress. All the electrical, IT, plumbing, HVAC, and fire suppression

equipment rough-in is in place. The concrete apron around the perimeter of the playground has been installed as well as the curtain drainage. Staff asked for general pricing and useful lives of the major components for the project so they can be incorporated into the POA's R&R schedule. We are looking for a completion date around mid to late September 2023.

The Dolphin Head Memorial & Honorarium Program is in full swing. We have already received commitments from various families and POA organizations who are interested in donating the following: five (5) benches, three (3) picnic tables, four (4) Adirondack chairs, and one (1) grill.

We still have three (3) more picnic tables available, as well as two (2) more Adirondack chairs. Other outdoor items include one more grill, four (4) bike racks, the foot/dog washing station, the firepit, and swing trellises, among other things. The total amount of donations that have been submitted so far (this includes the purchase of outdoor items PLUS general contributions) is \$24,050.

### Do you know where your children and grandchildren are?

With the warmer weather and the end of the school year not far away, some young people get into mischief. Seemingly harmless pranks and others that are downright destructive and dangerous can quickly escalate. Such activities include but are not limited to ringing doorbells and running away, egging or toilet papering homes or vehicles, damaging mailboxes, etc. On occasion, young people have donned camouflage gear and carried realist-looking pellets and BB Guns, removing or painting the orange plastic tip that may be the only thing that distinguishes the weapon from the real deal at a distance.

All these situations are destructive, dangerous, and potentially lethal as individuals encountering such behavior and/or situations may overreact. Many property owners have legal firearms in their homes. Please have a conversation with your children and grandchildren about such behavior and potentially placing themselves in harm's way. Back in the day, an old New York City TV Station asked during evening commercial breaks, "**Do you know where your children are?**" If you encounter such activity, please call Security at 843-681-2459.

### Hurricane Season

Hurricane season is here; please check out the Hurricane Preparedness information on our website [hiltonheadplantation.com](http://hiltonheadplantation.com). You can find this valuable information under the Security button on the site's main page. Hard copies of the Hilton Head Plantation Hurricane Preparedness Guide are also available at the POA Office. Several updates have been made to the guide based on our experience with Matthew, so please secure an updated copy of this important document. We learned several valuable lessons from past Hurricanes Dorian, Irma, and Matthew. The most critical lesson is: **Do not expect or depend on State or the Federal government to do everything for you immediately following a hurricane. These government agencies should be focused on the**

**most needy and vulnerable in our community. As we all know, if we are (God Forbid) hit with a hurricane again, those who are able need to be as self-sufficient as possible for as long as possible. Our three-fold communication approach worked well (HHP website, email blasts, and 800 number Hurricane Hot Line. Flooding, which has always been depicted on our hurricane category maps, is a reality and every storm is different.** That means proper preparation, adequate food, clothing, and medical supplies for you and your family members. Please read over the guide and prepare accordingly.

Please jot down this special 800 number that has been set up for HHP residents and keep it with your hurricane evacuation kit **1-877-264-5267**. We have set up this number to dispense hurricane evacuation and re-entry information. Being prepared is key; please take a few moments to review the information available on our website and prepare your household.

### Weapons

Many property owners lawfully keep weapons in their homes. If you own a weapon, you have a special responsibility to handle your firearm safely to not endanger yourself or those in your household. Weapons not in use should be stored in a safe, or trigger locks should be employed to prevent an accidental discharge of such weapons. Firearms should be kept well away from children or adults that do not have the expertise and, in some cases, the capacity to handle such a weapon safely.

If you travel with a weapon in your vehicle, it should be locked in your vehicle. Leaving a weapon in plain sight in a vehicle is an invitation to those with ill intent to take your weapon and use it for criminal purposes. Again, owners of firearms have a duty of care to secure their weapons and keep them from falling into the wrong hands.

The discharge of a firearm is prohibited on common property within Hilton Head Plantation. The Town of Hilton Head Island also has an Ordinance that prohibits the discharge of a firearm anywhere within the Town Limits. The exception is a Law Enforcement Officer or Security officer in the performance of their Duties.

If you own a firearm, you have a further obligation to get the necessary training to handle and care for your firearm. If you have a question about a firearm that you own or may have in your home, please call HHP Security 843-681-3053, and they will be happy to assist you.

### Irrigation Systems

Please use your home irrigation systems responsibly; 40-50% of our potable water goes toward landscaping irrigation. Please use irrigation for landscaping sparingly and consider turning off your irrigation system during periods of rainfall or installing a rain sensor on your irrigation system that will automatically turn off your system when there is sufficient natural rainfall.

**Stay Safe,  
Peter Kristian, GM**

## "Harry G. Heron" Your Master Covenants Bird

***This month's focus: "As the garbage churns or why did you dump on POA Open Space."***

My sight is my most valued sense; listening is my second-best sensual influence that I often take for granted. It is common for humans and birds like me to hear what is being said but are not internalizing the meaning of the words. Day-to-day life can be challenging, annoying, overwhelming, and just plain a bummer at times. It's in our nature as birds/humans to try and make our lives and those of our loved ones more manageable, smoother, more efficient, and less stressful. It can be so tempting to cut a corner here and there. I learned from a very wise old heron when you talk; you only repeat what you already know. But when you listen, you may learn something new.

Residents cannot permit contractors to park trailers or any type of heavy equipment overnight. Why?- leaving such commercial equipment creates a crime magnet as well as being unsightly to the neighboring properties. All work material must be removed from private property at the end of the working day. Parking of a commercial vehicle owned by a resident is only permitted on the paved surface of the owner's lot between 7:00 AM – 7:00 PM and on weekends and holidays only if the commercial equipment, lettering, or business signs are not visible. Remember, I have the eyesight of my avian cousin, the eagle, and can spot commercial lettering 200 feet above the community. Campers or recreational vehicles may be parked temporarily in a property owner's driveway for loading, unloading, and cleaning. However, my good friends at the POA office can provide temporary RV parking spaces for residents and their guests for up to seven days at the POA Service Center compound. You can inquire about a parking pass at the POA Service Center front desk. It is a good idea to call ahead in such situations so you can reserve one of the POA's temporary spaces.

When you remove your leaves and other debris from your yard, you may take it to our POA dumpsite in the Farm on Surrey Lane. Dumping personal household materials, trash, or debris on POA common property and/or open space at any time violates the POA Rules and Regulations. **Residents may not dump trash or landscape material anywhere on POA private property (Plantation House, Spring Lake Pavilion).** If a professional lawn company maintains your lawn, they must take any landscape debris accumulated off the property to their designated location.

The POA Landscape Disposal Area is for human **POA residents only**. Unfortunately, we do have a few pugnacious humans who will clean their yard and then dump those materials on a neighboring vacant lot or POA common property. I applaud you for cleaning up your property but don't let your cleanup fall short - take the landscape debris to the POA dumpsite for disposal. It ruffles my feathers when I see landscapers properly maintaining their client's yard, only to dump the collected debris on common property or even the neighboring property. **Why can't we dump our debris in open space?** Throwing landscape debris all helter-skelter will not only dirty our surroundings and pollute the environment, but it also gentrifies the neighborhood in an untimely manner and encourages odious infestations. If you observe such feckless behavior, call my human friends at the POA Service Center (843-681-8800 ext. 242) or the Security Department 24/7 at 843-681-2459. Please call while the dumping activity is in progress. Alerting Security after the activity has occurred makes it much harder to track down the thewless culprits and correct the situation. If you have a "bird's eye view," please note the company's name and, if you can, take down the

vehicle's license plate number - that would be a real bonus!

Residents who have guests and family members desiring to fish in our lagoons are urged to obtain a map designating which lagoons are HHPPOA-owned and which are privately owned by regimes within the community or by a golf course.

Maps are available at the POA Service Center. The term "**fishing**" shall be understood to include the catching of shrimp, oysters, crabs, clams, mussels, and all commonly accepted forms of rod and reel fishing. POA-owned (freshwater) lagoons are for catch and release. A person authorized to fish in HHPPOA lagoons must be a Hilton Head Plantation Property Owner, an immediate family member, a tenant of nine (9) months or more, or their houseguests, and have in their possession a current HHP ID Card or Houseguest Card when fishing.

Fishing is permitted from sunrise to sunset. When fishing, residents 13 years of age and older must provide appropriate identification as a Property Owner or Houseguest of HHP. Access to POA lagoons must be through common property. Trespassing on private property is prohibited. A person fishing is responsible for determining the location of common property that allows access to lagoons. This information is included on the latest HHPPOA map.

Sometimes we focus on ourselves and overlook how our actions may impact others. Living in a world of "my way". Addressing issues in a calm and phronesis manner allows all people involved to create a neighbor-to-neighbor solution. Exterior landscape lighting may illuminate driveways, walks, entries, and landscape features. However, all lighting needs to be positioned so it has a minimal effect on your neighbor's property. All lighting shall be shielded, directed, controlled, and fit within the general character of adjacent properties. Being responsible with your lighting can be challenging, but it is well worth the effort. When lighting your property, it's essential to think about your neighbors and the effect your home's lighting will have on the people living around you. All landscape lighting shall be included in the property's landscape plan and located within property lines. It's about being a respectful, civil neighbor to those around you. Having neighborly etiquette is key to maintaining a positive relationship with your adjacent nestmates, which can highly impact your quality of air-space, I mean life. Lights need to be shrouded and aimed so that the neighbors won't be bothered. When it comes to illuminating your property, remember that we want to experience the chimerical effect: we don't want to see the source. We can have safe and effective outdoor lighting without becoming invidious to our neighbors. We all like the freedom to do as we desire on our own property. However, it's also important not to intrude on our neighbor's rights through our actions. Remember the old adage: **'Love your neighbor as yourself.'**

## Fishing Club

The Club will not be meeting during the summer. Our next dinner meeting will be in September. That does not mean there won't be any activities!

Fishing sessions at Kids Kamp started a few days ago and will continue twice a week until August 2, Mondays and Wednesdays from 9 until 11. Many members have signed up to help the kids enjoy their favorite Kamp activity. If you haven't volunteered, come on and try it. There are three half-hour sessions daily, and the Kids are divided into three age groups, the youngest group pretty much requiring one-on-one assistance. You don't have to know anything about fishing to help.

In order to combat weed problems in our lagoons, the POA has funded a grass carp stocking program. Fifteen hundred juvenile fish were distributed to eight ponds having the most serious weed conditions. The carp were several inches long and had a much better chance of surviving than the one-to-two-inch bass we normally stock. They are expected to grow rapidly as they can eat up to three times their body weight daily, consuming aquatic plants and other submerged vegetation. An 8-inch fish stocked in the spring can reach 18 inches by the fall. A mature carp typically will be 23 to 40 inches long and will live 5 to 9 years. To prevent spawning and increasing their numbers, we stocked only sterile carp. Each fish is tested at the hatchery before we receive it to insure that it cannot reproduce and have a negative effect on the bass and bream populations.

While carp can be caught by anglers and give a great fight when hooked, catching one is a rare experience. True story: we were fishing in one of our fresh water lagoons several years ago when a property owner asked what we were fishing for. He said he had recently watched a fisherman hook a tarpon which fought and finally broke his line. We said it couldn't possibly be a tarpon (strictly a salt water species). He insisted he was told it was a tarpon. Later it dawned on us that the fisherman had probably said that he had had a "carp on". So, they can be caught!

While carp are supposedly a good food fish, they, like all our fresh water species are "catch and release" only.

## HHP Yacht Club

All Quiet on the Waterfront? Nah: Boating Season is here! Members enjoyed an oyster roast & blessing of the Fleet by Rabbi Bloom.

The HHP Yacht Club has enjoyed several fun events of late; check the accompanying photos. While the Club's social calendar is taking a bit of a hiatus during the Summer, there are boating events available — fitting in view of July 1 being designated National Boating Day. <https://www.soundingsonline.com/news/july-1-declared-national-boating-day>.

**June 20 to June 22 Overnight to Dataw Island:** This trip is intended as a multi-day event for boaters and an opportunity for drivers as well. Because the trip by boat can take up to a day, the slower boaters will plan to leave earlier than the drivers and return later. Weather will also be a factor. The current plan is for the boaters to arrive at Dataw on June 20 or 21 with drivers arriving June 21. All registrants will enjoy an informal early afternoon dock-party on June 21 followed by dinner at the Morgan River Grill. We hope to have time to explore Dataw Island as well. More details will be forthcoming in the event invitation.

**July 5 Day event cruising to Pinckney Island/Mackay Creek:** We need a member willing to step up and lead this event and get folks out on the water to explore a delightful spot right near by. This would be a perfect event for a Freedom Boat Club Member to lead. Get in touch with other FBC and boating Members, invite Social Members along for the outing, explore Pinckney Island, or just hang out and swim in Mackay Creek, watching the dolphins.

Additional day events are on the calendar for later in July (when Fleet Captain Carl Bryant has planned a visit to an island in Chechessee River), August 9, and September 6.

Do you want to explore a unique maritime location? Do you like to go fishing? Is there some feature of the Lowcountry you have been anxious to investigate? Pick a date and organize a trip; we will help with the planning, invitations, and execution. Let our Fleet Captain Boating, Carl Bryant [fleetcaptain@hhpyc.org](mailto:fleetcaptain@hhpyc.org), know what date and event you would like to lead and he will assist (or get you assistance). Consider joining HHPYC and take or make an adventure with us! Explore our website at [HHPYC.org](http://HHPYC.org). Any resident of Hilton Head Plantation may join the club. Social memberships are available for non-boat owners. Contact [membership@hhpyc.org](mailto:membership@hhpyc.org) for more information.

For more information, you may contact Ric Blaine at 706-373-8204 (rcb3771@gmail.com). We'll play loud enough so you can hear us – maybe even in the parking lot! Please come on down and rock out. We now have an acoustic spinoff group that meets on various days at the Plantation House for those who enjoy playing soft rock, blues, folk, country, bluegrass, and standards. ### Train Club

This club is for anyone who has an interest in trains. Some of our members have extensive layouts, some have only a holiday display, and some have no trains, just like railroading in general. Members are modelers, history buffs, railfans, etc. Model train members have O, HO, and G gauges, to name a few. The club has a permanent layout in the Plantation House, both O-gauge and HO-gauge.

We provide running trains for some of the plantation functions, for example, July 4th, the Holiday Hayride, and the Children's Holiday Party. We provide assistance to anyone who needs help or just wants information about the hobby. Our club members or guests do presentations on various train topics. Occasionally, we may visit another train club in the area, attend area train shows, or visit a train museum or a member's home.

Regular meetings are normally held at the Plantation House, at 2:00 PM, on the second Wednesday of the month from October to June.

Guests and new members are always welcome. Please consider attending.

For additional information, contact Bob Gluszik at [rgluszik@yahoo.com](mailto:rgluszik@yahoo.com).

Once again, we would like to thank everyone for helping us to make our Spring 2023 Craft Sale benefitting the non-profit Hospice Care of the Lowcountry a success! At the sale,

some of our most popular items were our tote bags--especially bags you can bring to the beach or to the pool! We always have different designs and sizes, some with hidden pockets or attached key chains.

Many of the crafts from our Spring Sale were done by our newest members. Our members have many different crafting abilities and we always welcome new members, whether full or part-time. If you would like to join Crafters, get email updates on craft sales or have donations of craft materials, please contact either Margot Gilbert at 843-342-9996 or Deanna Collins at 843-689-3979.

## Hilton Head Plantation Corvette Club

The club has a lot of activities planned for the upcoming months. We recently had a cruise to The Mighty Eighth Air Force Museum in Pooler. This month we caravan to the Parris Island Marine Base for lunch on base and then a tour of the museum.

As mentioned last month, the club will be participating in the 2023 Concours d'Elegance & Motoring Festival on HHI. The Concours is a spectacular annual event held in November on the fairways of Port Royal CC. We will have six cars in the Saturday Car Club Showcase. There will be hundreds of cars there and only two Corvette clubs.

Yes, the rumors are true! Our car club does not have dues, meetings, bylaws or officers, just get together! To get on the emailing list contact Dale Pena at [dpena1@yahoo.com](mailto:dpena1@yahoo.com) or call 585-704-2386.

## HHP Dog Club

Does your pooch like to romp through our lagoons or splash in standing water? If so, begin immediately to discourage that behavior.

Of course, we are all aware of the danger of alligators in our lagoons, but even stagnant puddles can pose a threat.

Pythiosis, a water mold infection, can affect the skin or the gastrointestinal tract of canines, causing sores and weight loss. It is contracted when dogs drink contaminated water or stand in such water with open wounds. The mold is especially found in the tropics and sub-tropics, which means it may be in our lagoons here on HHI. This serious condition has a poor prognosis, but with treatment, many dogs survive.

Canines can be infected for a long time before symptoms become severe. The most common symptom of this infection is weight loss, caused by gastrointestinal inflammation with accompanying vomiting and diarrhea. Dogs with pythiosis that affects the skin typically develop sores that refuse to heal. If your dog has either of these symptoms, as well as fever and lethargy, get him to the vet at once.

Given the symptoms, your vet may test for many different underlying causes, but not consider Pythiosis, so do not hesitate to suggest that the test for "swamp cancer" be given. However, the condition is relatively rare this far away from the Gulf of Mexico, so chances are that your furry friend is not infected. Since treatment may involve surgical removal of affected areas or of limbs, the rarity of the disease in this area is good news. However, the seriousness of the disease is such that you should keep it in the back of your mind, or keep this article in your files, just in case.

While avoiding stagnant water and lagoons, you should continue with hours of —

### WILDLIFE SAFETY REMINDER

Please be mindful of our alligator and wildlife population on Hilton Head Plantation. HHP is home to alligators, six venomous snakes, coyotes, spiders, etc. Most alligators have a healthy fear of humans. If you suspect and can identify an alligator demonstrating aggression towards humans, please report it to Security so they can investigate and determine if the alligator is indeed aggressive.

**DO NOT HARASS OR FEED ALLIGATORS.**

*Please exercise caution and common sense.*

## TAG - The Avid Gardeners

May was a busy month for The Avid Gardeners. At our general membership meeting on the 19th, we enjoyed a delicious brunch provided by several members. This was followed by an Officers Installation ceremony performed by longtime member, Pat Rapp. Installed were: Jane Johnson - Treasurer, Christine Thumm - 2nd VP in charge of Membership, Janina Cushman - 1st VP in charge of Programs, and Carol Sevelowitz - President. Each officer was given a potted herb plant which signified the duties of her position.

Also, at this meeting, Awards Chairman Sandy Stern announced multiple regional and state garden club awards that we received for various projects and presentations over the course of this year.

For our final meeting of the year, on June 16, members will tour one of our award-winning community projects, the Plant It Pink garden located at Hilton Head Regional Hospital, as well as the hospital Auxiliary children's garden there and then proceed back to Hilton Head Plantation's community Farm. Afterward, lunch at Dockside restaurant will wrap up our year. The Avid Gardeners do not meet in July or August. But if you are interested in becoming a member for the coming year, which officially begins in September, now is the time to contact Membership Chair Christine Thumm at thumms@aol.com or 843-415-6809.

## Craft Beer Club

May saw a return to Spring Lake for the monthly meeting. You have probably played Trivial Pursuit or participated in the local DJ Trivia, but have you ever played....BEER TRIVIA??!! Our celebrity announcer was Keith McCool from Lincoln & South Brewing.

His questions both amused and befuddled the members, but prizes were awarded, and all are now much wiser about the liquid we love so much! For advance notice of our monthly events, join now so you don't miss the unique BEERventures planned this year, including a first-time event in the next month or two. Members receive advance notice early in the month for the scheduled event that month. Don't just wait for the mid-month HHP Newsletter...or you'll be sorry...and thirsty!

The club typically meets on the fourth Monday of each month at the Spring Lake Pavilion at 6:30 PM unless there is an offsite event. Members are always encouraged to bring craft beer from the area or from their travels to discuss and share with the group. Dues are \$10/year per person and you may join at any time of the year. Our sharing provides craft beer aficionados the opportunity to try other styles and flavors of beer to expand their beer palates.

**Woodcarvers**

Are you looking for a hobby that allows you to create beautiful keepsakes or practical items without spending hundreds of dollars just on getting started? Wood carving checks all of those boxes. It is a type of woodworking in which people use knives, chisels, and other hand-held wood carving tools to create figures or designs in pieces of wood. A wood carver's most basic tools are carving knives, such as whittling knives, chip carving knives, and hook knives. Whittling knives are all-purpose tools, while chip carving knives feature a thin, short blade that allows carvers to chip away small bits of wood. A hook knife, or spoon knife, has a bent blade shaped like a hook and is ideal for carving spoons and other pieces with hollowed-out areas. Most woodcarvers start by whittling. They find a small piece of softwood and use a pocket knife to create a toy or a trinket. Whittling is the most basic type of wood carving since the only essential tools are a wood carving knife and a honing strop. Chip carving starts with a flat piece of wood. Carvers "chip away" bits of wood to form a design on the wood's surface. Chip carvers use gouges as well as carving knives. Most woodcarvers do not build or repair furniture. They work on a much smaller scale. Come and visit with us at the Plantation House on Thursdays from 12:30 to 2:30. See if you might be "cut out" to be a woodcarver. Your grandkids will benefit from your newfound skill.

## Water Aerobics is Back!

Kick off the summer right with Water Aerobics! Our morning Water Aerobics class with Gretchen Spiridopoulos will not only keep you cool, but also benefit your body. Water aerobics is similar to a land aerobics class but since it's done in the water, it places less strain on your joints (less impact). It also helps to strengthen the body because the water offers resistance leading to burning calories and losing weight.

Water aerobics works all the major muscle groups, provides all-over toning, improves balance and coordination, and relieves stress. Plus, the water massages you and the feeling of weightlessness can be very enjoyable. So dig out those swimsuits and take advantage of this class!

Date: **Mon. – Wed. – Fri.**  
 Place: **Spring Lake Pool**  
 Time: **8:30 AM – 9:30 AM**  
 Cost: **See Universal Ticket Matrix for prices on page 19**  
 Instructor: **Gretchen Spiridopoulos**

Universal Fitness Tickets from 2022 are not valid or exchangeable! You must use a 2023 Universal Fitness Ticket in order to attend the class.

## Deep-End Water Aerobics

The Activities Department is also offering an evening Deep-End Water Aerobics class on Tuesdays and Thursdays. Deep-End Water Aerobics will be a non-impact aquatic class with water resistance for overall conditioning using vertical positioning. Jogging and specific exercises will strengthen the back and abdominal muscles for a total body workout. This class will be a wonderful way to strengthen and tone your body!

Dates: **Tuesdays & Thursdays**  
 Place: **Spring Lake Pool**  
 Time: **5:30 – 6:30 PM**
